

Pipeline to Build Docker Image and Push to ACR

/ = Aage ke taraf jhuka hua forward slash

\ = Piche ke taraf jhuka hua Backward slash

- = Hyphen

1. Azure DevOps Pipeline ka aukat hona chahiye ACR me image push krne ka..

Aukat paida krne ke lie service connection banana padega..

2. Pipeline me YAML ke format me stages me stage, stage me jobs, jobs me job, job me steps, steps me tasks set karke hum log pipeline execute karenge...

Is process ko document se dekh dekh karenge rattenge nahi...
